

The Stillaguamish Tribe of Indians is currently seeking a Natural Resource Technician 1/2/3/4

This is a full time permanent position with a competitive wage range of \$20.49 - \$27.86 depending on experience and education.

Please review the summary functions below and look at our website for more details and to download the application.

### **SUMMARY OF FUNCTIONS**

This position performs a variety of field and lab work activities for natural resource projects related to fisheries, wildlife, marine biology and water quality. This will include work in or around rivers and streams, the marine environment, and upland wildlife habitat. These duties are performed under the general supervision of a higher level scientist. Along with the rest of the Natural Resources Department, this position works to protect and enhance the Tribe's treaty protected rights.

**Position is expected to start on January 31, 2017.**
