

The Stillaguamish Tribe of Indians is currently seeking a Fish Tech 1

This position is seasonal, full time with a wage of \$18.38 hr

Please review the summary of functions below and look at our website for more details and to apply

SUMMARY OF FUNCTIONS

The Fisheries Technician position will perform duties pertaining to data collection and habitat enhancement.

The majority of the Technician's duties will be participating in a continuing juvenile salmon outmigration study on the Stillaguamish River. The incumbent will work under the lead smolt trap technician on a screw-type smolt trap located on the mainstem Stillaguamish River near Silvana, WA. The successful applicant will be expected to work weekends (Wed.-Sun, or Fri-Tues) and randomized shifts (2300-0700, 0500-1300, 1100-1900, or 1700-0100). Additional shifts will be added during the season as needed to calibrate the trap. The smolt trap is exposed to the elements and work in inclement weather will be required. Shifts may be canceled depending on river flows but will not be canceled due to weather. Primary duties include: deploying and operating the smolt trap; identifying, measuring, and enumerating juvenile salmonids; trap maintenance; data collection and entry, reconciliation of electronic data; and trap maintenance.

Position is expected to start on January 31, 2017 and end on or before June 30th, 2017.
